

Sketching Set, Surveying: Military Field Sketching

SC: 6675-95-N03
NSN: 6675-00-641-3632
LIN: T63238

System Description

Technical Engineering Set: Engineer Field Planning, Reconnaissance, and Sketching (ENFIRE) enables the Engineer leader and recon team members to perform reconnaissance, construction management, project management, obstacle and field engineering construction, field surveying, facilities management and inventory management tasks and utilize standard military communications devices to transfer data files. Provides tools and equipment (hardware, software and other) to support engineer technical reconnaissance and intelligence gathering, mapping, road construction and maintenance, obstacle creation and reduction, unit bed down, facilities acquisition and rehabilitation, tele-engineering, and logistics management. Some of the major items include a hand-held computer, digital video camera, long & short distance laser measuring devices, GPS, bar code scanner, printer/scanner/fax, battery charger, comms interface, transport case, and software.

Reset Responsibility

Unit
